

YIELD

YIELD X BLACK DAHLIA CBD COLLECTION

THE BLACK DAHLIA / SOWDEN HOUSE. A RENEWED VISION.

The Sowden House, located in Los Angeles, is a historic landmark designed by Frank Lloyd Wright, Jr. While the Sowden house's unique architecture makes it easy to recognize, the landmark is more widely known for its ties to something much darker: the location of the Black Dahlia murder. Today, through the Black Dahlia x YIELD Collaboration, we aim to reclaim the home's character, giving back to diverse charities, and promoting a lifestyle of wellness and intention.
